LOTS OF HOPE GARDEN/SCIENCE CURRICULUM INTEGRATION PILOT PROJECT, Providence, RI

Project Description

GCD was hired by the Providence Healthy Communities Office for the garden curriculum integration portion of the Lots of Hope Greenhouse project. We are working with the Science Curriculum Specialist at the Providence Public School District (PPSD) as well as teachers from each grade at Fortes Elementary School, Alfred Lima Sr. Elementary School and Gilbert Stuart Middle School to connect their new Science standards to their school gardens. We will pilot and evaluate garden-based lesson plans during the 2014-2015 school year and share the developed curriculum district-wide.

Project Date

Spring 2014-ongoing
